

## **Message from President of Supervisory Committee**

Dear Alumni,

Welcome to our party!

With my honor to be the President of Supervisory Committee for AAUSJ, I'd take this opportunity to share the association's visions with you. They include: cohering USJ graduates from various backgrounds, advocating knowledge sharing among members, promoting the spirit of helping each other, assisting members in building personal network, giving back to society as well as USJ, etc.

From my personal experience, these association's visions would gradually help to bring some priceless treasures to its members, such as friendship, knowhow, social network, social contribution, etc.

So do welcome to join us. Let's create values and earn treasures together.

May Chan
