

聖若瑟大學
UNIVERSITY OF
SAINT JOSEPH

Vacancy

The University of Saint Joseph (USJ) is currently looking to fill the following vacancy in the Information Systems Office (ISO):

Web Application Developer (Ref. Code: USJ21ISO-005)

Responsibilities include, but are not limited to:

1. Develop new features for the university information systems;
2. Maintain and update existing applications and feature as required;
3. Be involved in the full development lifecycle, from requirement gathering to testing and maintenance/bug-fixing.

Requirements:

1. Bachelor degree or above in Computer Science/Information Technology or related areas;
2. At least 3 years of software development experience;
3. Experience with Linux and version control systems (i.e. Git);
4. Knowledge of following computer science/information technology:
 - JavaScript and TypeScript; Node.js and Express.js; HTML 5; CSS 3;
 - both relational and NoSQL databases (i.e. MySQL, PostgreSQL, MongoDB);
 - Docker or other container technology;
5. Preferably familiar with state-of-art web UI frameworks (i.e. Vue.js, React), responsive and mobile-first web design;
6. Preferably provide publicly available project portfolio (i.e. Github account);
7. Proficient in spoken and written English;
8. Able to interact effectively as a member of a team and work collaboratively with other departments;
9. Demonstrate sense of personal and professional accountability;
10. Strong interpersonal skills and be able to work well with personnel at various levels;
11. Strong problem-solving skills, proactively and positive attitude;
12. Macao ID card holder.

For application:

- Applicants should visit <http://www.usj.edu.mo/en/about/careers-at-usj/> for more details, and submit their applications online.
- All documents and personal data provided by applicants will be kept confidential and used for recruitment purpose only.
- Review of applications will continue until the position is filled.
